

Middle School and High School Science Tutor

Reports to: Associate Pastor

Department: Revival Homeschool

Classification: Supplemental

Compensation: Per semester - Minimum \$1,000 per class

Job Description:

Our growing homeschool is expanding, and we are prayerfully seeking a dedicated tutor to lead **Middle School Science and High School Biology** with Lab classes for the upcoming 2026/2027 school year.

- **Subject (Middle School):** Science – a foundational class covering general or physical science, with hands-on experiments and real-world examples.
- **Subject (High School):** Biology – high school level covering the nature of life, cells and cell processes, with hands-on experiments and real-world examples. Taught with emphasis on God's intelligent design in living things.
- **Format:** Small group instruction (aiming for 6–12 students per level) with teaching, interactive examples, practice activities, homework review, and encouragement in a supportive, Christ-centered environment.
- **Semester:** 14 weeks per semester, starting around late-August 2026 to May 2027
- **Schedule:** (2) 1.5-hour sessions (e.g., one session for Middle School and one for High School)
- **Location:** Class meets on church premises.

Key Responsibilities:

- Schedule and lead weekly classes for each level, maintaining a consistent 14-week semester structure from late August 2026 to May 2027.
- Assess student progress, provide feedback, and adapt teaching methods to meet individual needs while fostering a passion for Science rooted in faith.
- Collaborate with the Associate Pastor and Revival Homeschool team to align classes with overall program goals and integrate biblical principles where appropriate.
- Manage classroom resources, including procuring necessary supplies for experiments, and maintain a positive, team-oriented approach to support the homeschool community's mission.

Qualifications:

- Passion for Science education, experience teaching middle/high school-level Science (preferred: teaching credential or proven homeschool tutoring success).
- Ability to integrate a biblical worldview where appropriate (e.g., seeing God's design in creation).
- Strong communication skills, both written and verbal.
- Ability to work independently and as part of a team.

Help us build the next generation of faithful, capable young adults who marvel at God's creation through Science! If this stirs your heart, reach out today. We look forward to hearing from you!
